GHETTO GENIUS WILL WRITE FOR EVENING WORLD

Rose Pastor, Fiancee of J. G. Phelps Stokes, to Contribute Six Articles, the First to Appear Next Monday, on Problems of the East Side.

MR. STOKES TALKS ON HOW THEY FOUND AFFINITY.

"No Proposal of Marriage Was Necessary," He Says in a Dictated Interview, "We Are Already One in Love"—Simple Marriage.

GHETTO GENIUS'S PROMISE TO WRITE FOR THE EVENING WORLD.

DEAR SIR—I thank you very much for your suggestion to write six sketches for your paper on subjects of interest in the so-called Ghetto—the lower east side.

I accept your offer and will furnish the first of the series for Monday, April 10. Sincerely,
ROSE HARRIET PASTOR.

The wide interest taken in the romance of Rose Harriet Pastor, the daughter of the Ghetto, whose genius and intellect raised her to a place where she could uplift her people, and who has found her affinity in J. G. Phelps Stokes, a young millionaire sociologist, led The Evening World to request that she write a series of articles on her impressions of the east side and its multifarious problems.

Miss Pastor readily consented and she will pen six articles dealing with the life in the Ghetto as she, one of its people, sees it. Her sympathy with her people, her amazing career, rising from the depths of the direct poverty to a position in which she will be the social equal of the first ladies of the land, should make these stories a rare treat.

This extraordinary young woman, even before she met Mr. Stokes and impressed him with her earnestness of purpose and beauty of character, had won fame among her people as a writer and a poet. While toiling as a seamstress to support a large family, she gave up all her leisure to educational work.

Her whole life and that of her millionaire husband will be devoted to the work she began as a young girl. In her articles for The Evening World.

SCHOOLGIRL ENDS HER LIFE WITH PISTOL

Eva Lake, Sixteen Years Old, Is Found Dead in Mother's Home at Corona, L. I.

Eva Lake, a sixteen-year-old schoolgirl, was found dead in her room in her mother's home at No. 7 Grand avenue, Corona, Borough of Queens, this afternoon. There was a bullet hole in her head and a new revolver with one cartridge empty lay in her lap.

The girl had been ill and dependent, but her illness was not severe enough to prevent her from keeping up with her studies. She started for school as usual today, but turned back when she was out of sight of the house and returned by way of a rear door without being seen by any member of the family.

One of her schoolmates called at the house this afternoon to inquire about her. This was the first intimation Mrs. Lake had that her daughter had not been to school. She went to the girl's room and found her dead, sitting in a chair.

The Lakes are well-to-do and live in a handsome home. There was no reason in the house and the members of the family are at a loss to account for her possession of the weapon with which she killed herself. There was no short period during the day when she was no one in the house but the girl and it is supposed she took advantage of the opportunity to fire the shot into her head. She died instantly.

NEW TREATY FOR GERMANY.

BERLIN, Germany, April 7.—It is reported that a German mission, headed by Count von Tattenbach, (former Minister of Germany in Washington) will shortly proceed to Paris to present a special German-Moroccan treaty to the proposed conference which will be held in that city.

TEN YEARS FOR CRIME AGAINST SCHOOL GIRLS

Judge Newburger Sentences Jacob Klempner After Denouncing His Offense.

By sending Jacob Klempner, a shoemaker of No. 17 Rutgers place, to Sing Sing for ten years for luring east-side schoolgirls into his shop Judge Newburger to-day took a long step in the direction of stopping an evil practice against which The Evening World has been conducting a crusade for weeks.

The arrest and conviction of Klempner, as well as other monsters of the same kind, has been largely the result of The Evening World's agitation, and such long sentences as that handed out to Klempner, it is hoped, will prevent many recurrences of this kind of crime.

Klempner's attorney made a plea for clemency for his client.

"Is he entitled to it?" suddenly asked the Judge.

The lawyer had to admit he couldn't see any ground for clemency and not down.

Turning to the prisoner, Judge Newburger said:

"You have been adjudged guilty of a crime of the most heinous nature. It is time that the atrocious practice prevalent in this city should be suppressed and with it."

Two other men convicted of similar offenses were remanded until next Friday for sentence.

Samuel Smith, assistant janitor of the Allen street school, was convicted before Justice Newburger this afternoon on three charges of abducting school girls, whom he abused. He will be sentenced to-morrow.

HIGHLANDERS ARE PROTESTED BY BROOKLYNS

Griffith's Game at Ridgewood Scheduled for Sunday May Be Called Off.

The Brooklyn Baseball Club has taken steps to prevent the Highlanders playing their scheduled game at Ridgewood Park, L. I., Sunday.

The Brooklyn Club in its protest to the National Commission, says the playing of the game would be a violation of the territorial agreement.

This protest coming at the ninth hour is regarded by the American League Club as unfair, unpatriotic and spiteful. The Highlanders played at Ridgewood last spring and last fall, and there was no objection offered by the Brooklyn club. This year, however, Charlie Ebbets, having secured control of the Trolleyman, makes a bold bid for advertising by still fighting the American Leaguers when all the war was believed to have ended and things were running amicably.

It is not known just yet whether or not the Highlanders will play the game, which has been arranged at considerable expense for advertising, &c. Owner Frank Farrell is out of town so no decision in the matter could be announced to-day.

HACKENSCHMIDT WILL MEET JENKINS

Tom Jenkins and Hackenschmidt are to meet in a catch-as-catch-can match after all. Their managers will meet to-morrow in Room 10, New York Theatre Building, and arrange details. The match will probably be decided at Madison Square Garden.

BENNINGS RACE TRACK, WASHINGTON, April 7.—Seven races were on the card at Benning this afternoon, and it did not look as if the talent would have any the best of it. Each race seemed to furnish a contest with plenty of good betting, and such suits Washingtonians exactly.

Where favorites have practical walkovers Washingtonians are not pleased. They like to see the hundred to one chances roll in, for the probabilities are that they or some one of their friends will be there with a dollar.

WOMAN ENDS LIFE WITH POISON.

Widow Meyers Found in Room by Police After Neighbors Reported Her Missing.

Thomas Downs, of No. 225 Hoboken avenue, Jersey City, reported at the Oakland avenue station this afternoon that Mrs. Anne Meyers, a widow, who lived alone on the third floor of his house, had not been seen for two days.

Two policemen were sent to the house and found Mrs. Meyers dead in bed. A bottle partly filled with carbolic acid was on the floor near the bed and the woman's face was covered by the poison.

The woman had a son, Eugene, but he was not at home.

M'GOVERN ON VERGE OF BREAKDOWN

Following Physician's Advice, Fighter Will Go South to Recuperate.

(Special to The Evening World.)

ST. PAUL, Minn., April 7.—Terry McGovern, former feather-weight champion pugilist of the world, who is now playing a theatrical engagement here, is said to be on the verge of a nervous breakdown as a result of overwork.

Following the advice of his physician McGovern will go South to recuperate.

Terrible Terry McGovern is one of the greatest little fighters in the world. He is a native of Ireland and his popularity with fight fans all over the world is unbounded.

For the past seven years McGovern has made his living in the prize ring, and in that time he has defeated more great fighters than any other boxer. He won the bantam championship of the world, and when he became too heavy to defend it graduated into the feather-weight championship. His success here was wonderful. New Yorkers will remember his victory over George Dixon, which gave him the title of feather-weight champion, and his international contest with Pedlar Palmer and his battle with Frank Erne, holder of the lightweight championship, and Joe Gans.

Has Been on the Stage.

McGovern has been starring in a play written for him which embraces his career from the time he was a stenographer in a lumber yard in Brooklyn to his decisive victory over Pedlar Palmer. The play portrays his home life, his marriage and finally his winning of the world's championship.

For several months it has been a notice of much for him. He showed signs of a breakdown in Chicago, but his indomitable pluck, which has carried him to fame and fortune, would not permit him to take a much-needed rest. Nature has finally conquered and the great little fighter has been ordered South immediately.

BEATEN ONLY BY CORBETT.

In a remarkable ring career extending over seven years and embracing over 125 battles McGovern has suffered but two defeats, both at the hands of Young Corbett.

He is a better drawing card from both a theatrical and pugilistic standpoint than any of the little men.

Thomas Downs, of No. 225 Hoboken avenue, Jersey City, reported at the Oakland avenue station this afternoon that Mrs. Anne Meyers, a widow, who lived alone on the third floor of his house, had not been seen for two days.

SAVED FROM SUICIDE BY HIS CHILDREN

Rare Presence of Mind Shown by Girl of Twelve and Boy of Nine.

George Pentz, a civil engineer, was prevented from taking his life this afternoon by his two children, Antonette, twelve years old, and Clifford, nine, through a rare display of intelligence and pluck on their part.

The Pentz family live in a flat on the second floor of No. 49 East One Hundred and Thirty-third street. There are five children, and for the last three months their mother, who is a church organist and choir singer, has been suffering from a nervous malady that incapacitated him for work.

The father was left at home with three children, Antonette, Clifford and Van, a two-year-old baby, Mrs. Pentz going out on her round of music lessons. She had hardly left the house when the man began to break up the furniture. The children summoned Mrs. Carson, the janitress, and she managed to soothe him.

Child Cut off Gas.

After the woman left the flat he got a piece of gas tubing and went into his room, locking the door. The little girl, Antonette, saw him do this and crept to the door and listened. She did not hear anything, but soon the odor of gas was penetrated to her.

Without hesitation she dragged a chair into the hallway where the gas meter is, piled it high with books, climbed upon it, and with a stove lighter pounded the faucet until she had turned it, cutting off the gas for the entire flat.

After this was done the little girl summoned the janitress and together they endeavored to break open the door. The little boy, Clifford, however, had not been idle. He crossed the hall into the next flat where there was a room with a window opening on the air-shaft.

Brave Boy's Perilous Feat.

The window of his father's room was across the shaft. At considerable risk and by singular agility the boy got across the shaft, pried open the window and crawled in. His first act was to pull the tube from the mouth of his parent who was stretched unconscious on the floor. Then he unbolted the door and allowed his sister and Mrs. Carson to enter.

While the janitress and the little girl were struggling to rouse the senseless man the boy called in Policeman Sherry who summoned an ambulance from the Harlem Hospital. The man was taken to the hospital and has a good chance to recover.

EQUITABLE FIGHT WILL BE CARRIED INTO THE COURTS

Col. Bacon Declares Policy Holders Represented by Him Will Not "Stand" for Any Harriman Investigation of Their Affairs.

NO HOPE IN DIRECTORS OR IN THE LEGISLATURE.

Insurance Companies, He Says, Own the Law-makers—Urges Legal Battle to Enforce Honest and Economical Conduct of Equitable Affairs.

So far from satisfied are those policy holders of the Equitable Life Assurance Society, led by Col. Alexander Bacon, with the action of the directors yesterday in appointing Edward H. Harriman on a committee to investigate the alleged mismanagement of the society's finances, which is practically an order to investigate himself in their view, that they are going to ask the courts to set the action of the board aside.

Col. Bacon said to-day as every effort to secure an investigation which would be honestly conducted for the interests of the policy holders had failed, and as nothing was to be looked for from a legislative investigation, the only resort of the policy holders now is the courts.

"The idea of appointing Mr. Harriman on such a committee," exclaimed Col. Bacon, "Nothing could be more absurd than to ask a man to investigate serious charges against himself. We can look for nothing from such an investigation and apparently the directors does not intend to give us any other kind."

"The policy holders I represent, and many of them have policies for \$100,000 or more, are indignant at this, and they will not stand it. I have to-day advised them nothing is to be looked for from an investigation of financial mismanagement by a committee in which Mr. Harriman is to serve."

"I have also advised them that there is nothing to hope from a legislative investigation, as the insurance companies own the legislature, paying the very campaign expenses of most of the members each year."

"I have told them that the court is the last resort and that must be appealed to at once. There is no use fooling any longer with the society. I am now awaiting their instructions. There is no doubt what they will do, and I am all ready to begin action."

"I have also advised my clients that as the result of a thorough investigation I have made into the business I am prepared to say that if the equitable was conducted on a proper and economical basis holders of lifetime policies would not have to pay more than a third of what they now pay in premiums."

A prominent member of the directory of the Equitable, who is a partisan of Mr. Hyde, explained the failure of the Board to pass the agreement for the reconstruction of the Executive Committee in this way to-day:

"The Board decided that it would not go further with the mutualization plan until that had been formally approved by the Superintendent of Insurance."

"The board was unanimous in declining to go into the Executive Committee matter yesterday."

"It is the belief of all that the names to be submitted by the policy holders ought to be those of men of national prominence. No men should be named who will simply go into the committee and aggravate the feeling already existing in the State."

However, the Board is bound to accept whoever is named once it adopts the resolution. The names of Frank Platt and Mr. Cahill are not acceptable to many of us. They are backers of Mr. Alexander, and would simply sit in and aggravate the feeling. Neither is a director and therefore eligible, and I doubt if they could be elected to the vacancies in the directory."

and the policy holders will get together and decide on four men who will be acceptable to all. When they do the directory will pave the way to their appointment.

HOPPER'S MEN CRITICISED

The Commission appointed by Borough President Ahearn to investigate the causes of the collapse of the Harlem buildings recently sent its report to the Borough President to-day.

The Commission finds that a flagrant and repeated violation of the building laws with reference to the work on the foundation and other structural work caused the buildings to fail.

The commission does not censure Supt. Hopper, but severely criticises the inspection methods of the inspectors charged with daily examination of the buildings.

Suggestions that the building laws be amended and that architects be licensed are made.
